One or both of the following indicators may trigger a transition to all virtual learning. It is important to note that each closure decision will be made on a case-by-case basis and nothing prevents the district from moving to virtual learning for reasons other than those outlined below. (Metrics are subject to change based on new guidance from public health officials)

**COMMUNITY OUTBREAK**

A significant community outbreak is occurring or has recently occurred and is impacting multiple staff, students and families served by the community. The Board of Education will hold an emergency board meeting should the Brown County case burden reach 1,000 cases per 100,000 population per 14 days to revisit the learning models.

**STAFF ABSENCES**

Staff absences, due to individuals personally testing positive or being required to self-quarantine as a close contact, reach a level that has the potential to compromise the safety or fidelity of the learning environment.
